---

### PROFESSIONAL PREPARATION

---

- 1998                    **Doctor of Philosophy**, Integrative Neuroscience (formerly Biopsychology), State University of New York at Stony Brook, Dissertation Title: “Sensory, perceptual, and methodological factors in cardiac perception.”  
Dissertation Advisor: Jasper Brener Ph.D.
- 1995                    **Master of Arts**, Psychology, State University of New York at Stony Brook. Thesis focused on sensory and methodological factors that influence performance in cardiovascular interoception.  
Thesis Advisor: Jasper Brener Ph.D.
- 1992                    **Bachelors of Arts** (Summa cum Laude), Psychology, Stockton University

---

### PROFESSIONAL EXPERIENCE

---

- Fall 2017-present    Psychology Program Coordinator, Department of Psychology, Florida State University, Panama City Campus. Worked closely with other faculty and administrators to organize the course offerings for the next academic year. Met with senior level faculty and the Dean of Student Affairs to discuss how to implement program growth and track program development. Conducted two exit interviews with graduating students to determine our program strengths and weaknesses and have procured the, I AM PSYCHED! Exhibit to demonstrate our department’s commitment to growth and diversity in the psychology department.
- 2017-2018            Bay High School Executive Internship Program Sponsor and Supervisor, Department of Psychology, Panama City Campus. Worked one-on-one in a mentorship/supervisor capacity with a Bay High School student.
- 2012-Present        Teaching Professor, Department of Psychology, Florida State University, Panama City Campus.

**Kelley Knapp-Kline, 2**

- 2006-2012 Associate Teaching Professor, Department of Psychology, Florida State University, Panama City Campus.
- 2002-2006 Assistant Teaching Professor, Department of Psychology, Florida State University, Panama City Campus. Developed and taught new undergraduate courses in Social Psychology, Physiological Psychology, Sensation and Perception, Child Psychology, Developmental Psychology, Clinical and Counseling Psychology, Evolutionary Psychology, Psychology of Personality, and Issues in Neuropsychology. Also co-taught Profiling Psychopathology with the Criminal Justice Department (Dale Nute PhD) and Issues in Forensic Psychology with James Meyer PhD.). Developed new graduate courses in Biological Psychology and Developmental Psychology that were tailored to meet the needs of the students in the Master's in Applied Behavior Analysis program at FSUPC.
- 2001-2002 Adjunct Instructor, Social and Behavioral Sciences, Richard Stockton College of New Jersey. Developed and taught new courses in Abnormal Psychology and Perception.
- 1999-2001 Adjunct Instructor, Department of Psychology, Florida State University, Tallahassee Main Campus. Developed and taught new undergraduate courses in General Psychology and Sensation and Perception.
- 2000 Postdoctoral Fellow, Sensory Research Institute, Florida State University. Conducted research on the influence of subliminal odorants in olfaction research. Using the 10-20 EEG scalp electrode placement system, brain wave activity and behavioral responses were recorded and analyzed. Findings were presented at the Society for Psychophysiological Research and published as an abstract in Psychophysiology.
- 1998-1999 Visiting Assistant Professor, Department of Psychology, University of Oklahoma. Developed and taught new undergraduate courses in Experimental Psychology, Learning and Conditioning, Information Processing, Perception, and Cognition, Physiological Psychology, and Elements of Psychology.
- 1993-1997 Graduate Teaching Assistant, Psychology, State University of New York at Stony Brook. Assisted with teaching the undergraduate courses, Human Brain Function, Sensation and Perception, Cognitive Development, Intro to Psychology, Psycholinguistics, Animal Learning, and Brain and Behavior.
- 1996 Instructor of Record, Psychology, State University of New York at Stony Brook. Developed and taught new course in Brain and Behavior.

## **Kelley Knapp-Kline, 3**

- 1995-1996 Co-Instructor, Psychology, State University of New York at Stony Brook.  
Co-taught Introduction to Psychology with Nancy Franklin PhD.
- 1995 Co-Instructor, Psychology, State University of New York at Stony Brook.  
Co-taught Animal Learning with Jasper Brener PhD.
- 1993-1994 Graduate Research Assistant in Motor Control Study Project, State University of New York at Stony Brook. Supervised and conducted research examining the influence of force and timing of movements in motor behavior using both human and animal subjects. Also responsible for training undergraduate students to work as research assistants in the study.

### **VISITING PROFESSORSHIP(S)**

- 1998-1999 Visiting Assistant Professor, University of Oklahoma

### **CURRENT MEMBERSHIP IN PROFESSIONAL ORGANIZATIONS**

---

Association for Psychological Science

### **COURSES TAUGHT**

---

#### **UNDERGRADUATE**

Abnormal Psychology	Brain and Behavior
Child Development	Clinical and Counseling Psychology
Conditioning and Learning Lab	Experimental Psychology
Evolutionary Psychology	Forensic Psychology (co-taught)
General Psychology	Information Processing, Perception, & Cognition
Neuropsychology	Learning and Conditioning
Physiological Psychology	Psychology of Personality
Sensation and Perception	Social Psychology
Profiling Psychopathology (co-taught)	Methods of Offender Treatment (co-taught)
Psychology of Criminal Behavior	

#### **GRADUATE**

Biological Psychology (taught 12 years in Master's in ABA program)  
Developmental Psychology (taught 12 years in Master's in ABA program)

### **NEW COURSE DEVELOPMENT**

---

CLP4392: PSYCHOLOGY OF CRIMINAL BEHAVIOR (2015)  
PSB2000: BRAIN AND BEHAVIOR (2017)

**Kelley Knapp-Kline, 4**

### **TEACHING INTERESTS**

---

Behavioral Neuroscience  
Brain and Behavior  
Sensation and Perception  
Abnormal Psychology

Developmental Psychology  
Social Psychology  
Neuropsychology  
Clinical and Counseling

### **BACHELOR'S COMMITTEE CHAIR**

---

#### **SUPERVISED HONORS THESES**

Served as the Thesis Director and Committee chair on numerous Honor's projects at Florida State University. Worked intensively with students to develop an independent research study that was conducted using participants from the campus and community. Provided students with one-on-one training and mentorship through the rigorous process of creating experimental designs, generating stimuli, submitting an IRB proposal, procuring participant recruitment, data coding and entry, conducting statistical analyses using Stats software (Statistica, SPSS) and assisting writing the formal paper for the thesis defense. The Honor's project is semesters in the making and a painstaking process, but the outcome is very rewarding for both the student and the instructor. Often the crowning achievement in an undergraduate student's academic career, the Honor's Thesis project provides the student with an intensive, but transformative process of growth in their ability to engage in independent scholarship. It also provides evidence of research potential to prospective graduate programs. Students who have completed Honor's projects with me are listed below.

Cynthia Collyer, graduate (2017). *Visual Cues of Parenthood on Perceptions of Warmth and Competence*

Brooke Carroll, graduate (2014). *Identifying the Effects of Personality Type on Stress.*

Maria Paula Del Carlo, graduate (2013). *Influence of Parenthood on Perceptions of Warmth and Competence.*

Jeanie Beth Shults, graduate (2013). *Factors of Attraction and Relationship Satisfaction: the Love-Is-Blind Bias and Perceived Risk of Infidelity.*

Adira-Danique Philyaw, graduate (2012). *The Effects of Skin Tone and Hairstyle on African-American Females Perceived Attractiveness Ratings.*

Sean Reynolds, graduate (2011). *Relationship Between Hope and Academic Performance in Young Children.*

Melissa Hennion, graduate (2008). *Total Recall: A Study of Reaction Time to M.C. Escher Prints.*

**Kelley Knapp-Kline, 5**

Yahira Lugo-Lugo, graduate (2008). *The Mane Effect: Does Hair Length Matter?*

### **SUPERVISION OF CLINICAL PRACTICE**

---

Supervised Ali Ivancic's behavior analysis practicum for the North Carolina Psychology Board (2011).

### **SUPERVISED INDEPENDENT STUDY PROJECTS**

Mentored numerous students on independent study projects (DIS). Worked closely with students to develop a formal line of inquiry to be examined in the extant literature. Students must obtain articles in refereed journals, critically evaluate the work that is currently being published, and to write a formal APA research paper on the topic. Below are several independent study projects completed by students under my supervision.

Russell Surles, graduate (2017). *Neurophysiology Underlying Music.*

Katie Terrell, graduate (2012). *Posttraumatic Stress Disorder.*

Jessica Rhodes, graduate (2011). *Criminal Psychopathology and Psychopathy.*

Michael Miller, graduate (2009). *Carl Jung and Personality characteristics.*

Sha'vona Hird, graduate (2009). *Contributing Factors of Domestic Violence.*

Amanda Hattaway, graduate (2007). *Factors Influencing Homicidal Behavior in Serial Killers.*

Barbara Hollis, graduate (2004). *Issues in treatment efficacy in Schizophrenia.*

Stacy Watson, graduate (2004). *Efficacy of multiple psychotherapies on treatment outcomes of mental disorder.*

Melissa Babb, graduate (2004). *Issues in sleep disorders.*

Kristi Walters, graduate (2003), *Obsessive compulsive disorder.*

Nicole Cleary, graduate (2003). *Psychoactive drugs.*

Tawnya Toney, graduate (2003). *Intensive diversion.*

Vaun Cook, graduate (2003), *Issues in Neuroscience.*

## PUBLICATIONS

### REFEREED JOURNAL ARTICLES

### **PROGRAM OF RESEARCH**

---

- Interested in examining the factors involved in perceptions of attractiveness. In particular, I'm interested in the influence of visual cues on perceptions of attractiveness. In the lab, we've examined the effects of hair length, hair health, and pregnancy on attractiveness ratings. Our hypotheses suggest that certain facial and bodily cues may signal attractiveness based on the social evolutionary perspective.
- Interested in factors that influence stereotypes. To this end, I've conducted several projects to examine the influence of stereotypes on perceptions of job competence. One of these projects involved a between-subjects design in which participants read a brief resume of a candidate for a managerial position and then viewed a woman either wearing a headscarf or not. Following this participant rated the candidate on several personality traits or qualities. We found evidence of covert religious discrimination for the target who wore the hijab compared to the same female target shown without the hijab.
- Interested in the Stereotype Content Model (SCM)'s view of categorizing people based on two dimensions: warmth and competence. Am currently conducting a project in which participants are shown either a woman alone, the same woman with a baby, a man alone, a man holding the baby and then are required to fill out Likert-type items assessing the target's measures of warmth (good natured, warm, sincere, etc.) and measures of competence (capable, hard working, etc.).

### **COLLOQUIA AND INVITED LECTURES**

---

Knapp-Kline, K. (2014). The psychology of human trafficking: hidden in plain sight. Invited talk as part of the Human Trafficking series, presented by Milinda Steverson, Florida State University, Panama City Campus

Knapp-Kline, K. (2014). Love at first sight: attracting a partner. Invited talk as part of Nole Talk series, presented by the Student Activities Committee, Florida State University, Panama City Campus

Knapp-Kline, K. (2013). Autism in the Classroom. Invited guest lecture for Leadership in Education course, College of Education, Florida State University, Panama City Campus

Knapp-Kline, K. (2011). Prenatal development and teratogens. Invited guest lecture, Florida State University, Panama City Campus

**Kelley Knapp-Kline, 10**

Knapp-Kline, K. (2011). Factors that influence perceptions of female attractiveness. Invited Faculty colloquium, Florida State University, Panama City Campus

Knapp-Kline, K. (2011). Psychoactive Drugs and their neurobehavioral effects. Invited guest lecture for General Psychology, Department of Psychology, Gulf Coast State College, Panama City

Knapp-Kline, K. (2010). Sexual and Gender Identity Disorders. Invited guest lecture for Criminal and Delinquent Behavior, Department of Criminology, Florida State University, Panama City

Knapp-Kline, K. (2008). Social Validity. Invited guest lecture for Research Methods, Department of Psychology, Florida State University, Panama City

Knapp-Kline, K. (2007). Psychoactive Drugs. Invited guest lecture for General Psychology, Department of Social Sciences, Gulf Coast Community College, Panama City

Knapp-Kline, K. (2007). Factors that influence perceptions of female attractiveness. Invited Colloquium, Florida State University, Panama City Campus

Knapp-Kline, K. (2006). The Rapunzel effect: The influence of hair length and health on perceptions of female attractiveness. Invited guest lecture for Research Methods, Department of Psychology, Florida State University, Panama City Campus

Knapp-Kline, K. (2006). Psychopathy and abnormal behavior. Invited guest lecture for General Psychology, Department of Social Sciences, Gulf Coast Community College, Panama City

Knapp-Kline, K. (2005). Psychopaths: Emotional and behavioral responses. Invited guest lecture for General Psychology, Department of Social Sciences, Gulf Coast Community College, Panama City

Knapp-Kline, K. (2004). The Rapunzel effect: The influence of hair length on perceptions of attractiveness. Invited guest lecture for Research Methods in Social Work, Department of Social Work, Florida State University, Panama City Campus

Knapp-Kline, K. (2003). Freudian theory of personality. Invited guest lecture for Consumer Behavior, Department of Business Administration, Florida State University, Panama City Campus

Knapp-Kline, K. (2002). Sensory and perceptual factors that influence the ability to detect heartbeat sensations. Invited colloquium, Department of Social and Behavioral Sciences, Indiana University Southeast

**Kelley Knapp-Kline, 11**

Knapp-Kline, K. (2002). The nervous system and neural transmission. Invited lecture, Department of Social and Behavioral Sciences, Indiana University Southeast

Knapp-Kline, K. (2002). Olfaction: the sense of smell. Invited lecture, Department of Psychology, Florida State University, Panama City Campus

Knapp-Kline, K. (1999). Sensory mechanisms underlying perceived heartbeats. Invited colloquium, Department of Psychology, Florida State University

Knapp, K.A. (1999). Sensory basis of heartbeat detection. Invited colloquium, Department of Psychology, State University of New York College at Plattsburgh

Knapp, K.A. (1999). Tactile Perception. Invited lecture, Department of Psychology, State University of New York College at Plattsburgh

Knapp, K.A. (1999). Information processing, Cognition, and Memory. Invited lecture, Department of Psychology, University of Tennessee

Knapp, K.A. (1998). Sensory basis of heartbeat detection. Invited colloquium, Department of Psychology, University of Oklahoma

Knapp, K.A. (1998). Effects of heartbeat feedback on beliefs about heart rate and heartbeat counting. Invited colloquium, Department of Psychology, University of Oklahoma
