

**PROJECT: EVALUATION OF HARDWOOD AND PINE AS FEED-STOCKS
FOR ACTIVATED-CARBON PRODUCTION**

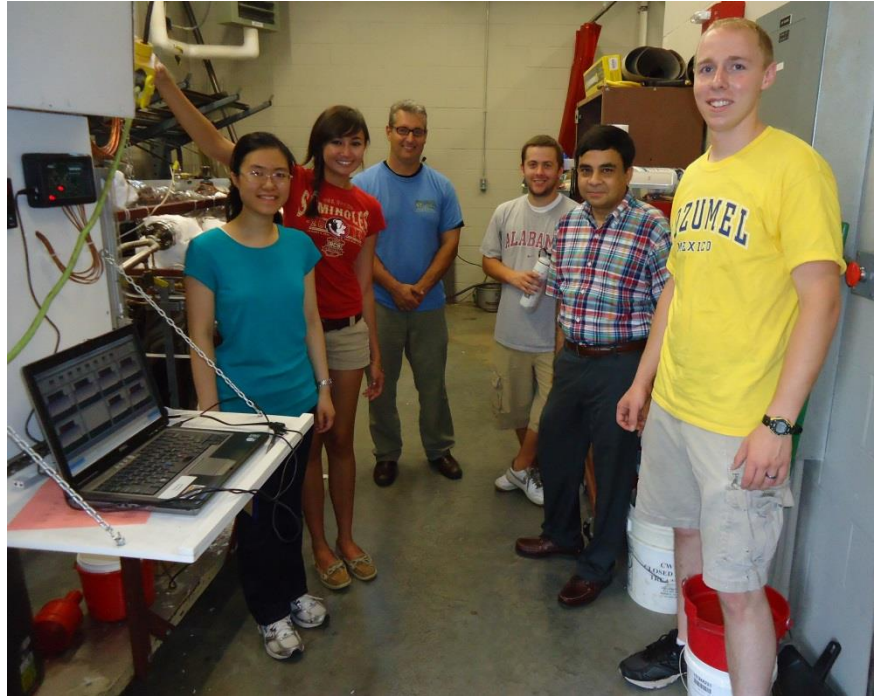

Figure: Pyrolysis Research Team

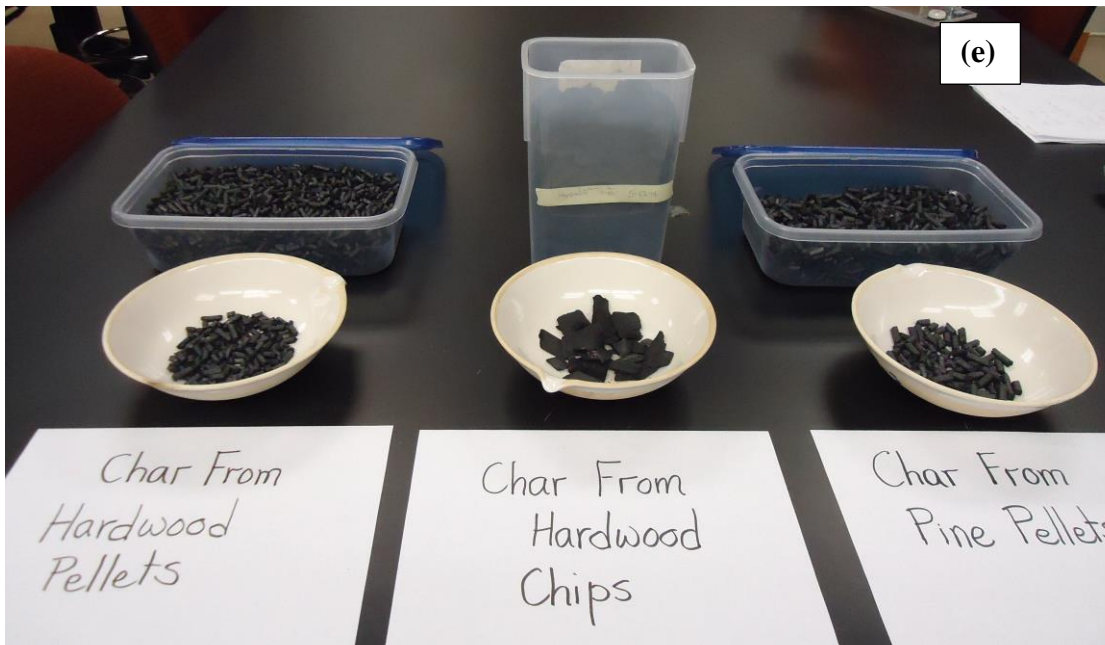

Figure: Char from different feed stocks

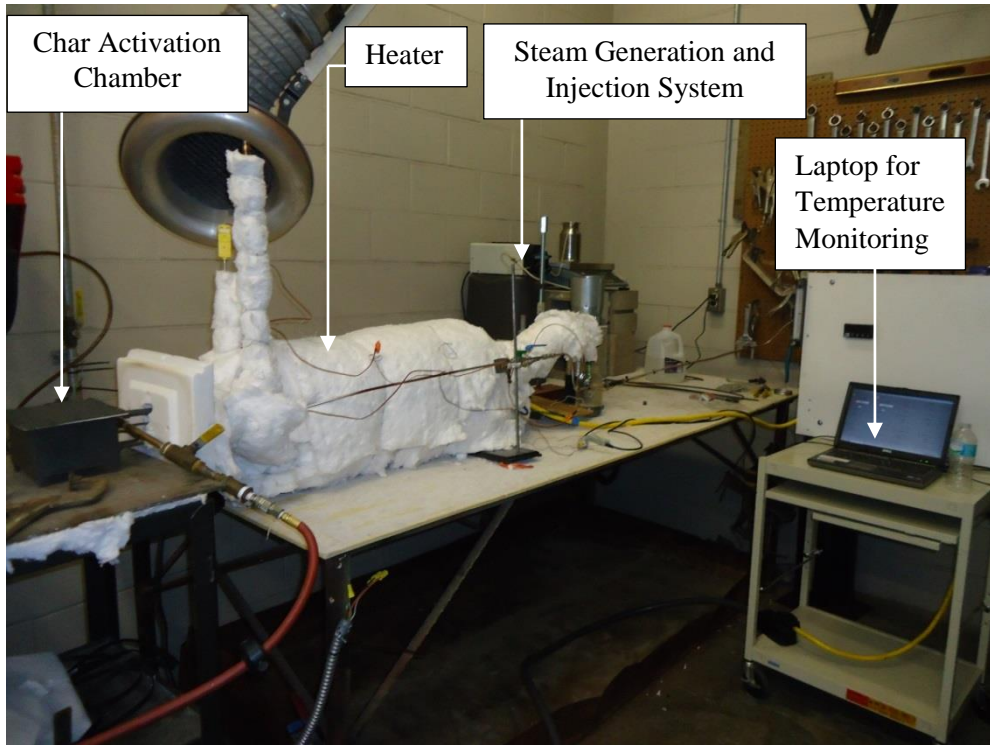

Figure: char activation system

Figure: GAC Produced

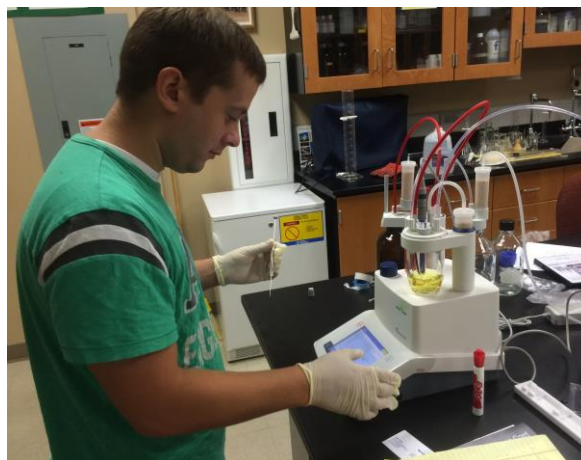

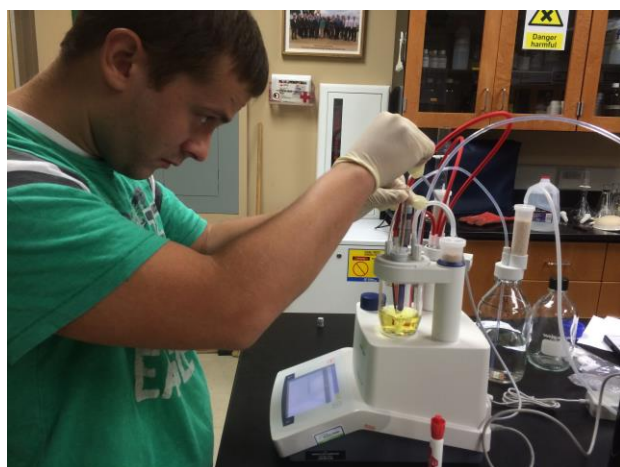

Figure: Determination of water of pyrolysis using K-F titrator

Figure: Determination of Ash content / volatile content

Students worked in this Project:

1. Jordan Mayers
2. Anna Penton
3. Edith Wong
4. Jacob Sumrall
5. Brandon Madden
